Family Stability & Workforce Investment Act of 2029

Bill Framework & Legislative Brief

Phase II · Track A · Second Reconciliation Window · Phase II · Track A · Year 3–5

LEGAL DISCLAIMER — POLICY DISCUSSION DOCUMENT

This document is a policy discussion framework and bill scaffold. It is not formally introduced legislation, has not been reviewed by licensed legislative counsel, and does not constitute legal advice of any kind.

All provisions marked [TBD] — including dollar amounts, specific IRC section numbers, penalty thresholds, appropriation amounts, and CBO scoring figures — require resolution by licensed legislative drafting counsel (the Office of Legislative Counsel for the House or Senate, as applicable), relevant agency technical staff, and the Congressional Budget Office before introduction as formal legislation.

Constitutional arguments, legal analyses, and statutory framings presented herein are analytical assessments developed for policy planning purposes. They are not legal opinions and have not been reviewed or validated by licensed legal counsel. This document identifies constitutional and legal risks requiring independent review — those identifications are planning guidance, not legal conclusions.

This framework was produced by the Reform Democrats of the New Commonwealth (RDNC), a private citizen policy research organization. It is not affiliated with any sitting Member of Congress, congressional office, government agency, or political party organization in any official capacity.

Consultation with licensed legislative counsel, the Congressional Budget Office, and relevant agency technical staff is required before any framework in this series may be introduced as formal legislation. Distribution is subject to RDNC classification protocols (REF_ layer: internal use and trusted partners only).

Phase II · Track A · Second Reconciliation Window · Bill 4

Part I — Legislative Brief (Non-Technical Summary)

Phase II opens when Phase I has delivered. This bill assumes the COLT Act's childcare provisions have worked — costs are down, enrollment is up, and the political constituency for expansion is established. Bill 4 does not introduce a new program. It extends and deepens one that is already demonstrably popular.

AT A GLANCE	
Bill Title	Family Stability & Workforce Investment Act of 2029
Short Title (Cite As)	The FSW Act of 2029
Legislative Vehicle	Budget Reconciliation (second window)
Phase / Track	Phase II · Track A · Year 3–5

Primary Committees	Senate Finance; HELP Committee
Dependencies	COLT Act (Bill 1) enacted and operational; childcare constituency established
Core Framing	Expanding what works. Building the workforce of the next economy.
Deficit Impact	Structured for neutrality; workforce participation gains score as revenue offsets
Byrd Rule Status	All provisions carry direct budget impact — Sec 201 deliberate-exposure posture documented

What This Bill Does:

1. **Expands childcare access toward near-universality.** Builds directly on the COLT Act's 7% income cap — extending eligibility, raising income thresholds, and increasing provider supply grants.
2. **Creates a workforce training pipeline tied to benefits.** Unemployment insurance enrollment is linked to free access to vocational training, community college, and behavioral health programs — implemented through existing WIOA, Perkins V, Apprenticeship, and Job Corps programs.
3. **Expands earned income supports for working families.** Restructures and expands the EITC to cover more workers, including those without qualifying children and self-employed workers.
4. **Establishes corporate training tax incentives.** Companies that invest in employee training receive structured tax credits, shifting the corporate role from benefits provider to skills investor.

ATTACK SURFACE	"We already did childcare — why more spending?" "Government dependency." "Corporate welfare." The Phase I success is actually the defense: it worked, and this expands what worked.
DEFENSE STRATEGY	"We did what we said. It worked. Now we're expanding it." Corporate training incentive reframes the narrative: corporations are partners in building the workforce. Earned income expansion frames as rewarding work.
FALLBACK POSITION	If corporate training credits face opposition, they can be separated as standalone legislation. Childcare expansion and EITC expansion are the core — protect those through reconciliation. Sec 201 training-linked UI carries body-baked safety mechanism + three-level fallback ladder per Part III.

Part II — Bill Framework

This is the structural scaffold of the bill. Dollar amounts, income thresholds, IRC section cross-references, and CBO scoring are flagged as [TBD] — these require licensed legislative counsel, Treasury technical staff, and the Department of Labor before introduction. COLT Act coordination is required for Title I amendments.

```
119TH CONGRESS     1ST SESSION     S. ____

To expand access to affordable childcare and workforce development programs; to reform and
expand the earned income tax credit; to incentivize corporate investment in employee training;
and for other purposes.

A B I L L
```

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SEC. 1. SHORT TITLE.

This Act may be cited as the "Family Stability and Workforce Investment Act of 2029" or the "FSW Act of 2029".

SEC. 2. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds the following:

(1) Childcare costs remain a significant barrier for working families even after Phase I COLT Act provisions. Near-universal access requires expanded eligibility thresholds.

(2) Unemployment insurance, in its current passive form, represents a missed opportunity to actively invest in the next phase of a worker's career.

(3) The Earned Income Tax Credit, while effective, fails to cover all workers who would benefit from its expansion, particularly workers without qualifying children.

(4) Corporate investment in employee training lags peer nations where employer healthcare burden is lower, suggesting a crowd-out effect on training investment.

(b) PURPOSE.—The purposes of this Act are to—

(1) expand the Childcare Affordability Credit established under the COLT Act of 2027 toward near-universal coverage of working families;

(2) establish a training-linked unemployment compensation framework, implemented through existing Federal workforce-development programs, to provide free vocational training, community college, behavioral health, and reemployment services to individuals receiving unemployment compensation;

(3) reform and expand the Earned Income Tax Credit to cover more workers, including those without qualifying children and self-employed workers; and

(4) establish an Employer Training Investment Tax Credit to incentivize corporate investment in employee training and skills development.

SEC. 3. BUDGETARY COMPLIANCE.

(a) RECONCILIATION.—The provisions of this Act are enacted pursuant to reconciliation instructions in the concurrent resolution on the budget for fiscal year 2030.

(b) DEFICIT NEUTRALITY.—The provisions of this Act shall be implemented in a manner that does not increase the Federal deficit over the 10-year budget window, as determined by the Congressional Budget Office. Workforce participation gains, EITC expansion-induced earnings increases, and childcare-induced labor force participation effects shall be counted toward budget neutrality in accordance with applicable CBO scoring rules.

(c) BYRD RULE COMPLIANCE.—All provisions are designed to produce direct budgetary effects. Any provision determined by the Senate Parliamentarian to be extraneous under 2 U.S.C. §644 shall be severable from the remainder of the Act. Sec 201 fallback structures are established in Part III of this framework.

SEC. 4. COORDINATION WITH COLT ACT.

(a) IN GENERAL.—Provisions of this Act amending or expanding sections of the Internal Revenue Code originally enacted by the Cost of Living Reduction and Tax Simplification Act of 2027 (Pub. L. ___, the "COLT Act of 2027") shall be coordinated with COLT Act provisions to avoid duplicative scoring or Byrd-Rule double-jeopardy exposure.

(b) AMENDMENT REFERENCES.—All amendments to IRC §36C (Childcare Affordability Credit) shall use COLT Act-as-enacted section numbers; counsel to verify codification before introduction.

TITLE I — CHILDCARE EXPANSION

SEC. 101. CHILDCARE AFFORDABILITY CREDIT EXPANSION.

(a) IN GENERAL.—Section 36C of the Internal Revenue Code of 1986 (as added by section

201 of the COLT Act of 2027) is amended as set forth in this section.
(b) EXPANDED ELIGIBILITY.—Section 36C(b)(2) is amended by striking $[TBD] (as enacted by COLT Act) and inserting $[TBD] (FSW expanded threshold), with phase-out range correspondingly expanded to $[TBD] (FSW expanded phase-out ceiling). Target near-universal coverage of households up to 300 percent of the Federal poverty level.
(c) PER-CHILD CAP EXPANSION.—Section 36C(c) per-child qualifying childcare expenditure cap is amended from $[TBD] to $[TBD] per child per year.
(d) PROVIDER SUPPLY GRANT EXPANSION.—Section 202 of the COLT Act of 2027 is amended to authorize an additional $[TBD] for provider supply grants for each of fiscal years 2030 through 2035, with priority to childcare deserts and high-cost-burden areas as defined by the Secretary of Health and Human Services.
(e) EFFECTIVE DATE.—Amendments made by this section shall apply to taxable years beginning after December 31, 2029.

TITLE II — WORKFORCE TRAINING PIPELINE

SEC. 201. TRAINING-LINKED UNEMPLOYMENT BENEFITS.
(a) IN GENERAL.—States receiving Federal unemployment compensation grants under chapter 23 of title 26, United States Code, shall offer to each individual receiving unemployment compensation—
(1) free vocational training aligned with regional labor market needs;
(2) free enrollment in community college courses or programs aligned with regional labor market needs;
(3) behavioral health services for individuals with documented barriers to workforce reentry; and
(4) career counseling and reemployment services.
Participation by individuals receiving unemployment compensation in services offered under this subsection is VOLUNTARY.

(b) IMPLEMENTATION THROUGH EXISTING ACCOUNTS.—The services required to be offered under subsection (a) shall be carried out through supplemental appropriations to and capacity expansion within existing Federal workforce-development programs, including—
(1) workforce investment activities under the Workforce Innovation and Opportunity Act, Title I (29 U.S.C. §3151 et seq.);
(2) career and technical education under the Strengthening Career and Technical Education for the 21st Century Act (Perkins V, 20 U.S.C. §2301 et seq.);
(3) Registered Apprenticeship programs (29 U.S.C. §50);
(4) the Job Corps (29 U.S.C. §3191 et seq.); and
(5) Reemployment Services and Eligibility Assessments (42 U.S.C. §506).
The Secretary of Labor shall not establish a new programmatic architecture, new eligibility criteria, or new performance measurement framework under subsection (a); existing program authority and existing program governance apply.

(c) SUPPLEMENTAL APPROPRIATION.—$[TBD] appropriated for each of fiscal years 2030 through 2035 for distribution to State workforce development boards under the existing programmatic frameworks identified in subsection (b).

(d) BENEFIT CONTINUATION.—An individual receiving unemployment compensation who voluntarily enrolls in services under subsection (a) shall continue to receive unemployment compensation benefits during the period of training participation, not to exceed [TBD] additional weeks beyond the standard State unemployment compensation eligibility period.

(e) STATE COORDINATION.—States shall coordinate services offered under subsection (a) with State workforce development plans submitted under section 102 of WIOA (29 U.S.C. §3112). State workforce development boards established under section 101 of WIOA

(29 U.S.C. §3111) shall administer the services within their existing governance structures.

[Note to counsel: Sec 201(a) faces highest Byrd Rule risk in the bill series under OBBBA 2025 Workforce Pell strike precedent. Three-level fallback ladder documented in Part III. Brief Senate Budget staff on body-baked safety mechanism (subsection (b)) and prepared restructure language for Level 2 (IRA §§48/48E/45/45Y bonus credit conversion) if (a) is read as creating new architecture.]

TITLE III — EARNED INCOME SUPPORT EXPANSION

SEC. 301. EARNED INCOME TAX CREDIT REFORM.

(a) IN GENERAL.—Section 32 of the Internal Revenue Code of 1986 is amended as set forth in this section.

(b) CHILDLESS WORKER EXPANSION.—Section 32(b)(1) is amended to increase the credit percentage applicable to taxpayers with no qualifying children from [TBD] percent to [TBD] percent.

(c) MINIMUM AGE.—Section 32(c)(1)(A)(ii)(II) is amended by striking "25" and inserting "[TBD]" as the minimum age threshold for taxpayers with no qualifying children.

(d) PHASE-OUT INCOME THRESHOLD.—Section 32(b)(2) phase-out income thresholds for taxpayers with no qualifying children shall be raised by [TBD] percent.

(e) SELF-EMPLOYMENT INCLUSION.—Section 32(c)(2) earned income definition is amended to include qualifying self-employment income on a fully eligible basis, with anti-abuse standards developed under Treasury rulemaking.

(f) EFFECTIVE DATE.—Amendments made by this section shall apply to taxable years beginning after December 31, 2029.

TITLE IV — CORPORATE TRAINING INVESTMENT

SEC. 401. EMPLOYER TRAINING INVESTMENT TAX CREDIT.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 of the Internal Revenue Code of 1986 is amended by adding a new section establishing an Employer Training Investment Tax Credit equal to [TBD] percent of qualifying training expenditures.

(b) PER-EMPLOYEE CAP.—The credit allowed under this section shall not exceed $[TBD] per employee per taxable year.

(c) QUALIFYING TRAINING EXPENDITURES.—For purposes of this section, qualifying training expenditures shall be limited to amounts paid for—

(1) accredited education at an institution participating in Title IV programs under the Higher Education Act;

(2) employer-operated training programs registered with the Department of Labor;

(3) on-the-job training programs registered with the Department of Labor;

(4) Registered Apprenticeship programs under 29 U.S.C. §50; and

(5) services related to qualifying training, including assessment, certification, and placement.

(d) WORKER-COMPENSATION ELIGIBILITY THRESHOLD.—Training expenditures shall qualify under subsection (c) only if directed at employees with annual compensation, as determined under section 3401, not exceeding [TBD] percent of the median annual compensation for the employer's industry, as determined annually by the Bureau of Labor Statistics.

(e) REFUNDABILITY.—The credit allowed under this section shall be treated as a refundable credit under subpart C of part IV of subchapter A of chapter 1.

(f) COORDINATION WITH OTHER CREDITS.—Amounts qualifying as expenditures under section 41 (research credit) or section 51 (work opportunity credit) shall not also qualify under this section.

TITLE V — IMPLEMENTATION AND OVERSIGHT

```
SEC. 501. IMPLEMENTATION TIMELINE.
    (a) YEAR 1 (2030).—COLT Act §36C amendments effective; Sec 201 supplemental
    appropriations distributed to State workforce development boards; Title III EITC
    expansion effective; Title IV employer training credit accepting first claims.
    (b) YEAR 3 (2032).—Childcare expansion enrollment milestone review; workforce training
    pipeline at full operational capacity; CBO interim report on workforce participation
    gains and revenue offsets.
    (c) YEAR 5 (2034).—Comprehensive program review and reauthorization assessment;
    cumulative workforce participation, GDP, and revenue impact assessment.

SEC. 502. COLT ACT COORDINATION CERTIFICATION.
    (a) IN GENERAL.—Not later than 90 days after the date of enactment, the Secretary of
    the Treasury shall submit to Congress a certification that all amendments to IRC §36C
    and other COLT Act provisions made by this Act have been coordinated with the Internal
    Revenue Service implementation of the COLT Act to avoid duplicative scoring, phase-out
    cliff effects, or Byrd-Rule double-jeopardy exposure.
    (b) PHASE-OUT COORDINATION.—The certification under subsection (a) shall include the
    Treasury's analysis of phase-out structure interactions between this Act, the COLT Act,
    and existing IRC §32 EITC provisions.

SEC. 503. ANNUAL REPORTING.
    Not later than 90 days after the end of each fiscal year, the Secretary of the Treasury,
    the Secretary of Labor, and the Secretary of Health and Human Services shall jointly
    submit to Congress an annual report including—
        (1) Childcare Affordability Credit enrollment and benefit amount data;
        (2) Sec 201 training-linked unemployment benefits participation data, including
        program-by-program enrollment under existing WIOA/Perkins V/Apprenticeship/Job Corps
        accounts;
        (3) EITC claims, including childless-worker expansion uptake and self-employment
        claims;
        (4) Employer Training Investment Tax Credit claims and qualifying expenditure data,
        including worker-compensation threshold compliance; and
        (5) CBO-validated workforce participation and revenue offset metrics.
```

Part III — Notes for Congressional Counsel

All [TBD] items and constitutional/Byrd Rule questions below require resolution before introduction. Sec 201 carries the established three-level fallback ladder pattern (third application across COLT Sec 102, IIC Sec 102, FSW Sec 201). Sec 401(d) carries the IRA-style eligibility-threshold structure with documented alternative pathways.

Item Requiring Resolution	Guidance
Sec 201 hybrid mandate-with-existing-account-implementation — body-baked safety with three-level fallback ladder [Source 271]	Sec 201 is the highest-Byrd-risk provision in the entire RDNC bill series per Group G research. The OBBBA 2025 Workforce Pell strike [Source 271] is the controlling 2025 precedent — MacDonough struck the expansion of Workforce Pell Grants to unaccredited providers despite substantial dollar magnitude because the eligibility-architecture changes represented policy substantially outweighing budget effect. Sec 201 is structured to mitigate this risk in two layers: the operative mechanism is implementation through existing programs (body-baked safety in subsection (b)), and a three-level fallback ladder is documented here for residual exposure. **(1) Primary structure (body as drafted).** Sec 201(a) creates the politically loud “states shall offer free training” framing. Sec 201(b) operates as the structural anchor: services under (a) are carried out through supplemental appropriations to existing WIOA Title I, Perkins V, Apprenticeship, Job Corps, and RESEA programs under existing programmatic authority. No new programmatic architecture is created; (b) explicitly bars the Secretary of Labor from establishing new eligibility criteria, performance frameworks, or governance structures. Sec 201(c) provides the direct mandatory appropriation. The “merely incidental” Byrd analysis turns on whether (a)'s “states shall offer” language is read as a new mandate or as a description of what existing programs (now supplemented under (c)) will do with additional funding. The bill body is structured to support the latter reading. **(2) Mid-level fallback if Sec 201(a) is read as creating new architecture.** If the Parliamentarian reads “states shall offer” as a new mandate independent of the (b) implementation mechanism, Sec 201(a) restructures as a tax-credit eligibility threshold under IRA §§48/48E/45/45Y bonus credit precedent — states that comply with the training-offer obligation receive a higher Federal match rate on existing UI grants. This converts the Byrd posture from mandate-with-conditions to credit-with-eligibility-threshold, which Group G research identifies as Byrd-safe. Counsel should have Level 2 restructure language drafted before introduction. **(3) Bottom-level fallback if Sec 201(a)–(b) are struck wholesale.** The Sec 201(c) supplemental appropriation alone is Byrd-safe — direct mandatory appropriation to existing WIOA/Perkins V/Apprenticeship/Job Corps accounts under existing programmatic authority. If (a) and (b) are removed, the existing programs continue to operate with the supplement, and the training-offer expectation is established through Department of Labor rulemaking and grant award conditions — the post-OBBBA pattern for workforce expansion provisions. The training expansion continues operationally even if statutory direction is lost. **(4) Parliamentarian engagement.** Pre-introduction Byrd letter from Senate Budget Committee staff is REQUIRED — this is the single most exposed provision in the bill series. Counsel should request advisory ruling on Sec 201(a) specifically, with prepared (a)→(b)+(c) restructure language ready for a Level 2 conversion if needed. Counsel should also brief committee staff on the deliberate institutional pattern: this is the third application of the deliberate-Byrd-exposure fallback-ladder structure in the RDNC bill series (COLT Sec 102, IIC Sec 102, FSW Sec 201). The pattern is named, not concealed — the three-level fallback ladder is the prepared institutional response, not a post-hoc scramble.

Item Requiring Resolution	Guidance
OBBBA 2025 Workforce Pell strike — controlling precedent context [Source 271]	**BODY-BAKED SAFETY APPLIED:** The One Big Beautiful Bill Act (July 4, 2025) [Source 271] STRUCK the expansion of Workforce Pell Grants to unaccredited providers, even though the provision had a substantial dollar impact. MacDonough found the eligibility-architecture changes (allowing unaccredited providers) represented policy that substantially outweighed the budget effect. This is the CONTROLLING 2025 PRECEDENT for FSW Title II workforce training. The Sec 201 architecture (implementation through existing WIOA Title I (29 U.S.C. §3151), Perkins V (20 U.S.C. §2301), Registered Apprenticeship (29 U.S.C. §50), Job Corps (29 U.S.C. §3191), RESEA (42 U.S.C. §506)) is the response to this precedent — supplementing existing accounts rather than creating new architecture. Sec 201(b) bars the Secretary of Labor from establishing new eligibility criteria, performance frameworks, or governance under (a). Counsel should preserve this architecture during refinement; restructuring (a) into independent program creation would re-introduce the Byrd risk the body was designed to mitigate.
Training tax credits — Byrd-safe structure [Source 271]	**NEW (preserved from _3):** Refundable tax credits for employer-provided training are Byrd-safe because they have a direct revenue effect — meeting the training threshold changes tax liability. Model: (1) Extension/expansion of Work Opportunity Tax Credit (26 U.S.C. §51) — add apprenticeship-completion bonus; (2) New §41-style training credit on qualifying workforce-development expenditures (Sec 401 of this Act). These credit mechanisms should be coordinated with COLT Act provisions to avoid double-counting. Any provision that imposes conditions on private employers INDEPENDENTLY of a federal financial flow faces the ARPA $15-minimum-wage Byrd precedent.
COLT Act coordination (Sec. 101)	Amendments must reference correct IRC section numbers as enacted by COLT Act. Counsel to verify §36C was properly codified before drafting amendments. FSW childcare and EITC provisions are structured as AMENDMENTS to COLT Act provisions, not standalone credits, to avoid duplicate scoring and Byrd-Rule double-jeopardy exposure. Sec 4 of this Act establishes the coordination requirement in operative bill text; Sec 502 requires Treasury certification of coordination within 90 days of enactment.
Income threshold amounts (Sec. 101(b))	Treasury to model optimal phase-out range. Target near-universal coverage — households up to 300% of federal poverty level is a reasonable starting point (≈ $90,000 for a family of four in 2030). Coordinate with COLT Act phase-out structure to avoid cliff effects at income boundaries between the two bills. Sec 502(b) requires Treasury to address phase-out interactions in the coordination certification.
Benefit continuation period (Sec. 201(d))	DOL to advise. Current average UI duration is 14–18 weeks. Training extension of 26 additional weeks is a reasonable baseline. Sec 201(d) is structured as an extension of EXISTING UI benefit authority (26 U.S.C. §3306) with training-participation condition — this is a terms-and-conditions-of-outlay structure under the Sec 201(c) appropriation, not a new mandate, and has a clean Byrd profile under the established §3306 framework.

Item Requiring Resolution	Guidance
EITC expansion amounts (Sec. 301)	The ARPA childless-worker EITC temporary expansion in 2021 is the template. Cost estimate: ~$15B/year for permanent expansion. Sec 301 is structured as a permanent amendment to IRC §32 — direct revenue effect; clearly Byrd-compliant as an income tax provision. Coordinate phase-out structure with FSW Sec. 101 and COLT Act childcare credit to avoid overlapping phase-outs. Sec 301(c) minimum-age threshold should be set to 19 (matching ARPA precedent) or 21 (more conservative); counsel to advise.
Sec 401(d) anti-abuse worker-compensation threshold — eligibility-threshold structure with alternative pathways	Sec 401(d) is structured as a credit eligibility threshold under IRA §§48/48E/45/45Y bonus credit precedent. Training expenditures qualify under subsection (c) only if directed at employees below [TBD] percent of industry median compensation. This is Byrd-safe because the threshold determines tax liability directly — meeting or failing the threshold changes the credit calculation. Two alternative architectures were considered and remain available as fallbacks if Sec 401(d) faces specific Parliamentarian challenge: **Alternative pathway 1 — Treasury rulemaking under existing §41 authority.** Anti-abuse provisions could be moved to Treasury rulemaking, with the bill establishing the credit and authorizing Treasury to define qualifying expenditure parameters by regulation. Structurally cleanest for Byrd survival but reduces statutory specificity on the anti-abuse intent. **Alternative pathway 2 — Mandatory percentage allocation (rejected).** A “at least X% of credit-eligible training must benefit workers below Y% of median wages” structure was considered but rejected as Byrd-exposed under ARPA $15 minimum wage precedent. Mandatory-allocation imposes obligations on private employers independently of the credit's revenue effect, creating “merely incidental” exposure. Counsel should not revert to this structure during refinement. Counsel should retain the eligibility-threshold structure as drafted (Sec 401(d)) and use Alternative pathway 1 as the fallback if (d) faces specific challenge.
Sec 401 credit parameters	25% credit on qualifying expenditures, capped at $5,000/employee, is a defensible starting point. Sec 401(a) credit percentage and Sec 401(b) per-employee cap are [TBD] pending CBO and Treasury scoring. Sec 401 is structured as a new section in subpart D of part IV of subchapter A of chapter 1, parallel to existing credits. Refundable component (Sec 401(e)) is Byrd-safe as long as it has a direct revenue effect. Sec 401(f) coordination clause prevents double-counting against §41 (research credit) and §51 (work opportunity credit).

Item Requiring Resolution	Guidance
Byrd Rule certification — pre-introduction Parliamentarian contact required [Source 271]	All FSW reconciliation provisions require pre-introduction bills-committee staff review and Senate Parliamentarian contact. Based on OBBBA 2025 experience [Source 271], FSW provisions classified by Byrd risk: **HIGH RISK:** Sec 201(a) training-offer mandate (mitigated by body-baked safety in (b) and fallback ladder in row 1). **MEDIUM RISK:** Sec 401(d) worker-compensation eligibility threshold (mitigated by IRA bonus-credit-precedent structure; alternative pathways available). **LOW RISK:** Sec 101 COLT Act §36C amendments (existing IRC structure); Sec 201(c) direct appropriation supplements to existing WIOA/Perkins V/Apprenticeship accounts; Sec 301 EITC expansion (existing IRC §32 structure); Sec 401(a)–(c)/(e)/(f) employer training credit (IRA tax-credit-with-eligibility-threshold structure).
Workforce participation revenue offset	Request CBO dynamic scoring supplement modeling labor-force-participation gains from childcare expansion (Sec 101), training-linked UI (Sec 201), EITC expansion (Sec 301), and employer training credit (Sec 401) as budget offsets. IRA precedent: CBO incorporated healthcare cost-reduction effects as offsets. Frame the dynamic score request as consistent with the Bipartisan Policy Center and Urban Institute modeling on childcare-to-employment pathways. Sec 503 establishes annual reporting of CBO-validated metrics to support reauthorization scoring.
